Web Development
HTML, CSS, Bootstrap, JSP, Servlet
Database
MySQL, PostgreSQL
Tools & IDEs
Git/GitHub, Eclipse, VS Code, NetBeans, XAMPP, Colab, Packet Tracer, OverLeaf, Notepad++
Productivity
MS Office, Canva, Lucidchart, Draw.io

Research Papers

IoT-Enhanced Precision Saline Monitoring System
Co-author | Under Review, 2025

The Advancement of Camera
Co-author | Published, 2024

Literature Review on Web Apps for Chronic Health Management
Author | Published, 2024

Languages

English — Fluent
Bangla — Native
Hindi — Conversational

Professional Summary

CSE graduate with enterprise internship experience in software development at Prime Bank PLC and current experience as a Business Development Intern. Skilled in Java, JSP, web application development, market analysis, and cross-functional collaboration. Adept at bridging technical and business requirements to deliver effective solutions. Seeking a Junior Software Developer or IT Associate position to leverage both technical expertise and business insight in building scalable, impactful products.

Experience

Progeny Technologies Ltd. — *Business Development Associate*
September 2026 – Present

- Conduct B2B prospect research, identify potential clients, and perform cold calling to generate leads and explore ERP business opportunities.
- Perform manual testing of ERP functionalities to verify system behavior and identify functional issues.
- Prepare and execute test cases to validate ERP features, business workflows, and expected system outputs.
- Identify, document, and report software defects with relevant details to support investigation and resolution.
- Verify system data, generated reports, and output accuracy to identify inconsistencies and potential issues.
- Assist with ERP customization, code debugging, and modification of existing system functionalities based on business and technical requirements.
- Support sales, testing, and development activities to help align ERP system functionality with business needs.

Progeny Technologies Ltd. — *Business Development Intern*
June 2026 – August 2026

- Conduct B2B market research across multiple industries to identify business challenges and potential ERP/digital transformation opportunities.
- Research industry-specific operational processes to understand how ERP solutions can improve areas such as sales, inventory, procurement, finance, and operations.
- Engage with prospective clients to understand business challenges, requirements, and current workflows.
- Support ERP solution discussions by connecting client requirements with relevant system capabilities and business processes.
- Assist technical and business teams with ERP-related development, customization, data management, and process optimization activities.
- Develop professional presentations, marketing materials, and visual content to communicate technology and ERP concepts clearly.
- Continuously develop knowledge of ERP implementation, business processes, requirements analysis, and technology-driven business solutions.

Prime Bank PLC, Dhaka — *IT Intern*
April 2025 – July 2025

- Built a full-stack 'Report Module' web application using JavaServlet, JSP, and MySQL, enabling the Card & ADC team to generate and export 5+ report types (CSV/PDF), reducing manual data processing time significantly.
- Collaborated directly with banking stakeholders to gather and translate business requirements into functional features.
- Designed and optimized relational database schemas in MySQL to support accurate, high-volume data reporting.

Soft Skills

- Team Collaboration
- Technical Communication
- Problem Solving
- Leadership & Initiative

Certificates

- IT Intern — Prime Bank PLC
- Huawei Mobile App Training

Seminars & Workshops

- Tech Fest
- SETS Fest
- CCDS Research Paper Workshop
- Huawei Training (Mobile App)

Independent University Bangladesh, Dhaka — *Student on Duty (SOD) — Library*
May 2023 – August 2023

- Assisted students and faculty with resource accessibility, improving library operations and academic productivity.
- Provided guidance on digital research tools, supporting a productive and organized study environment.

Education

Independent University Bangladesh, Dhaka — *BSc. in Computer Science & Engineering*
July 2020 – July 2025
CGPA: 3.17 / 4.00 | Minor: Management Information Systems
Relevant Coursework: Data Structures, Algorithms, Database Systems, OOP, Networking, Software Engineering

Shaheed Bir Uttam Lt Anwar Girls College, Dhaka — *Higher Secondary Certificate (HSC)*
2017 – 2019
Science Group | GPA: 4.33 / 5.00

Projects

Report Module — *Internship Project*
Tech: Java, JSP, Servlet, MySQL, Apache POI
Tools: Eclipse, XAMPP

- Developed a dynamic web-based reporting system enabling generation and export of multiple internal report types used by 2 banking teams.
- Designed user-friendly interfaces for report filtering, generation, and export (CSV/PDF).

Chronic Health Management System — *Academic Database Project*
Tech: HTML, CSS, PHP, MySQL
Tools: Visual Studio Code, XAMPP

- Built a full-stack web system managing patient records, chronic conditions, and appointment scheduling for a simulated clinic environment.
- Implemented a secure, normalized MySQL database with a PHP back-end and responsive HTML/CSS front-end.

Home Theatre Simulation — *Academic OOP Project*
Tech: Java
Tools: NetBeans

- Simulated a home theatre system in Java, demonstrating OOP principles — encapsulation, inheritance, and polymorphism — through well-structured interactive class hierarchies.
